

**Maths overview - Year 5**

<b><u>Autumn 1</u></b>	<b><u>Autumn 2</u></b>	<b><u>Spring 1</u></b>	<b><u>Spring 2</u></b>	<b><u>Summer 1</u></b>	<b><u>Summer 2</u></b>
<p>&gt; Identify, read, write, order and compare numbers to at least 1,000,000 and determine the value of each digit</p> <p>&gt; count forwards or backwards in steps of powers of 10 for any given number up to 1,000,000</p> <p>&gt; interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through 0</p> <p>&gt; round any number up to 1,000,000 to the nearest 10, 100, 1,000, 10,000 and 100,000</p> <p>&gt; solve number problems and practical problems that involve all of the above</p> <p>&gt; read Roman numerals to 1,000 (M) and recognise years written in Roman numerals</p> <p>&gt; <i>Explore practically using resources and pictures to see the link with place value.</i></p> <p>&gt; Add and subtract numbers mentally with increasingly large numbers.</p>	<p>&gt; Solve comparison, sum and difference problems using information presented in a line graph.</p> <p>&gt; Complete, read and interpret information in tables including timetables.</p> <p>&gt; <i>Explore practically using resources and pictures to see the link with addition/subtraction and place value.</i></p> <p>&gt; identify multiples and factors, including finding all factor pairs of a number, and common factors of 2 numbers</p> <p>&gt; know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers</p> <p>&gt; establish whether a number up to 100 is prime and recall prime numbers up to 19</p> <p>&gt; multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers</p>	<p>&gt; Compare and order fractions whose denominators are multiples of the same number.</p> <p>&gt; Identify, name and write equivalent fractions of a given fraction, represented visually including tenths and hundredths.</p> <p>&gt; Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements <math>&gt;1</math> as a mixed number</p> <p>&gt; Add and subtract fractions with the same denominator and denominators that are multiples of the same number.</p> <p>&gt; Multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams.</p> <p>&gt; Solve problems involving multiplication and division, including</p>	<p>&gt; Read, write, order and compare numbers with up to three decimal places.</p> <p>&gt; Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents.</p> <p>&gt; Round decimals with two decimal places to the nearest whole number and to one decimal place.</p> <p>&gt; Solve problems involving number up to three decimal places.</p> <p>&gt; Recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal.</p> <p>&gt; Solve problems which require knowing percentage and decimal equivalents of <math>\frac{1}{2}</math>, <math>\frac{1}{4}</math>, <math>\frac{1}{5}</math>, <math>\frac{2}{5}</math>, <math>\frac{4}{5}</math>, and those fractions with a denominator of a multiple</p>	<p>&gt; Identify 3D shapes, including cubes and other cuboids, from 2D representations.</p> <p>&gt; Use the properties of rectangles to deduce related facts and find missing lengths and angles.</p> <p>&gt; Distinguish between regular and irregular polygons based on reasoning about equal sides and angles.</p> <p>&gt; Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles.</p> <p>&gt; Draw given angles, and measure them in degrees (<math>^{\circ}</math>)</p> <p>&gt; Identify: angles at a point and one whole turn (total <math>360^{\circ}</math>), angles at a point on a straight line and <math>\frac{1}{2}</math> a turn (total <math>180^{\circ}</math>) other multiples of <math>90^{\circ}</math></p> <p>&gt; Identify, describe and</p>	<p><b><i>Revision, Fluency, Deepening</i></b></p>

Be your Best ☆ Expect the Best ☆ Succeed Together

<p>&gt; Add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction).</p> <p>&gt; Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy.</p> <p>&gt; Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why.</p>	<p>&gt; multiply and divide numbers mentally, drawing upon known facts</p> <p>&gt; divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context</p> <p>&gt; multiply and divide whole numbers and those involving decimals by 10, 100 and 1,000</p> <p>&gt; recognise and use square numbers and cube numbers, and the notation for squared (<math>^2</math>) and cubed (<math>^3</math>)</p> <p>&gt; solve problems involving multiplication and division, including using their knowledge of factors and multiples, squares and cubes</p> <p>&gt; solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign</p> <p>&gt; solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates</p>	<p>scaling by simple fractions and problems involving simple rates.</p> <p>&gt; Measure and calculate the perimeter of composite rectilinear shapes in cm and m.</p> <p>&gt; Calculate and compare the area of rectangles (including squares), and including using standard units, <math>\text{cm}^2</math>, <math>\text{m}^2</math> estimate the area of irregular shapes.</p>	<p>of 10 or 25.</p> <p>Solve problems involving number up to three decimal places.</p> <p>Multiply and divide whole numbers and those involving decimals by 10, 100 and 1000.</p> <p>Use all four operations to solve problems involving measure [ for example, length, mass, volume, money] using decimal notation, including scaling.</p>	<p>represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed.</p> <p>&gt; Convert between different units of metric measure [for example, km and m; cm and m; cm and mm; g and kg; l and ml]</p> <p>&gt; Understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints.</p> <p>&gt; Solve problems involving converting between units of time.</p> <p>&gt; Estimate volume [for example using <math>1\text{cm}^3</math> blocks to build cuboids (including cubes)] and capacity [for example, using water]</p> <p>&gt; Use all four operations to solve problems involving measure.</p>
